Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 29-34 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Blessingner et al. (U.S. 4,920,971).

Note in figures 1-4, a inflatable occluding band (10); a gauge with needle (32); a pump (22); a pressure relief valve (23); and a fluid conduit (26) connected between said occluding band (10) and pump (22); and the method steps as claimed in (Col. 3, lines 30-59).

3. Claims 29-34 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Eaton (U.S. 5,413,582).

Note in figures 1 and 2, a inflatable occluding band (20); a gauge with needle (32); a pump (30); a pressure relief valve (26); and a fluid conduit (26) connected between said occluding band (28,60) and pump (22); and Eaton discloses the method steps as claimed in through out the disclosure.

Response to Arguments

4. Applicant's arguments filed 10/6/03 have been fully considered but they are not persuasive. In response to applicant's argument that the devices of Blessinger and Eaton do not rely upon or create any limb occluding pressure below systolic where an

indicator indicates pulses corresponding to cardiac contraction of the subject, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). The Examiner disagrees with Applicant's remarks and has maintained the grounds of rejection under 35 U.S.C. 102 (e) as being anticipated by Blessingner et al '971 and Eaton '582 for the same reasons as set forth in the previous office action, paragraphs 2 and 3, paper No. 7.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
